

## Product specification sheet

Product title | 1SKB-R916U20 SKB 16U Shock Mount Rack

### Description

The 1SKB Series 20" Shock Racks provide a great value option while not compromising on one key commitment: keeping your equipment safe! These 20" deep roto molded cases offer serious protection with an internal frame mounted on adjustable elastomer shock absorbers on all eight corners, controlling the effects of shock and vibration on three axes. This design also makes for enough "sway" space around the internal frame for optimized air circulation and heat dissipation? very important when your delicate equipment is mounted and running. With our 1SKB Series you also save big on weight versus traditional flight cases and wooden cases. These models well accommodate audio mixers, video recording devices and communication equipment such as routers, switches etc. Typical applications are in broadcast, music, pro audio, outdoor events and many more markets.

### Features

- Molded in handles provide an easy & secure grasping point
- Easy to mount your equipment with all necessary hardware included
- Optional castor board available to avoid heavy lifting
- Includes rear rack rails for even more secure mounting of your device
- Front & rear lid for easy & fast access
- Standard shock absorbers suitable for payload range of 18 to 68 kg
- Need more weight? Optional shock absorber kit available to extended payload range from up to 136kg.
- Easy & secure transport or storage with integrated stacking ribs
- Lifetime warranty
- Available from 4U to 16U models

### Specifications
